## Experience

**DEDAN KIMATHI UNIVERSITY OF TECHNOLOGY**                                              **January 2024-Aprill 2024**
Intern                                                                            Nyeri-Kenya
⊘ https://www.dkut.ac.ke

I was in chargr of network administration and making sure that the institution's network was secured from various cyber attacks. I also took part in web development as projects for various students using different frameworks such as django. I also used skills such as application programming to build responsive applications.

## Projects

**Obi-wan Project**                                                          **February 2024-present**
prerequisite institutional project
